

## FLORIDA SEAPORT FAST FACTS

(Current as of October 1, 2017)

- Florida's public seaports line the Atlantic and Gulf coasts.

Port Canaveral	JAXPORT	Port of Pensacola
Port Citrus	Port of Key West	Port of Port St. Joe
Port Everglades	Port Manatee	Port of St. Petersburg
Port of Fernandina	PortMiami	Port Tampa Bay
Port of Fort Pierce	Port Panama City	Port of Palm Beach

- Waterborne international trade moving through these seaports was valued at \$79.3 billion in 2016. This \$79.3 billion represented 53.9 percent of Florida's \$147.2 billion total international trade.
- Of the \$79.3 billion in waterborne international trade, \$47.6 billion were in imports; \$31.7 billion in exports. Exports represented 40 percent of the state's waterborne trade value, and imports represented 60 percent.
- Florida's waterborne international and domestic cargo for 2016 increased 4.2 percent, from 103 to 107.4 million tons, and Florida's seaports moved more than 3.5 million containers in FY 2016.
- The value of containerized cargo increased by 6.4 percent to \$50 billion, with more than 3.5 million TEUs handled at Florida seaports in FY 2016.
- Domestic cargo tonnage grew by more than 16 percent, representing 47 percent of all cargo moving through Florida seaports.
- Florida ranked seventh among the nation's top exporting states in 2016.
- A recent Florida Ports Council Economic Analysis has shown that maritime cargo and cruise activities at Florida ports generated nearly 900,000 well-paying direct and indirect jobs and almost \$117.6 billion in total economic value. These activities contribute more than \$4.2 billion in state and local tax revenues.
- An economic analysis of strategic seaport projects in Florida suggests they will yield \$7 in state and local taxes for every \$1 of state investment at build-out.
- Employment in the seaport industry is one of the fastest growing sectors in the U.S. with a projected growth rate of 20 percent (the average for all other occupations is 14 percent). The average annual wage nationally for seaport-related jobs is also one of the highest average wages for a non-advanced degree job at \$52,000 per year.
- The cruise industry generates significant economic activity through its Florida-based operations, accounting for 62 percent of all U.S. cruise embarkations. In FY 2016 alone, nearly 15.5 million passengers embarked and disembarked from Florida seaports.
- The official trade organization of the North American cruise industry is headquartered in Florida and the state is home for the corporate and administrative offices of all of the top cruise lines. Direct cruise line employment totaling 20,676 jobs occurs in Florida. Overall, the cruise industry is responsible for more than 138,300 jobs in Florida.
- PortMiami, Port Everglades, and Port Canaveral are the top three multi-day cruise ports in the world. Cruises at Port Tampa Bay, JAXPORT and the Port of Palm Beach-- as well as port-of-call visits at the Port of Key West -- reinforce the statewide economic benefits of cruise tourism generated at Florida's seaports.
